

Sugar DoGgy Token White Paper

Version 1.0 - Q1 2024

1. Introduction

1.1 What is Sugar DoGgy?

Sugar DoGgy is a community-driven cryptocurrency project that combines humor, innovation, and sustainability. Designed to provide value through scarcity and engagement, Sugar DoGgy aims to redefine meme tokens by integrating advanced tokenomics, deflationary mechanisms, and utility.

2. Vision and Mission

2.1 Vision

To create a decentralized ecosystem that rewards its community while fostering innovation and fun in the cryptocurrency space.

2.2 Mission

To empower our community with financial tools, engaging rewards, and long-term sustainability through deflationary economics and a robust ecosystem.

3. Tokenomics

3.1 Total Supply

- 21 Million \$DOGGY Tokens

3.2 Allocation

- Community (80%) - 16.8 million tokens for public sales, staking, rewards, and incentives.
- Team & Management (20%) - 4.2 million tokens reserved for project development, marketing, and operational costs.

3.3 Supply Burn Mechanism

- Initial Burn: 50% of the total supply (10.5 million tokens) will be burned at launch.
- Liquidity Pool (LP) Burn System: A portion of transaction fees will be directed toward liquidity pool burns, reducing circulating supply over time.

4. Features and Utilities

4.1 Scarcity and Value Creation

- Token scarcity through burns increases value for holders.
- Sustainable token allocation ensures long-term project growth.

4.2 Community-Centric Rewards

- Staking Rewards: Earn \$DOGGY for holding and staking tokens.

4.3 Merchandise and NFTs

- Launch of Sugar DoGgy-themed merchandise and unique NFTs for community engagement and utility.

5. Roadmap

Phase 1: The Sweet Launch (Q1 2024)
